# ABOUT US

## VISION

To be the best and most thriving manufacturing firm of Non-Woven products across India within the next decade

## MISSION

To help our customers in every possible way to fulfill their needs by providing top-quality products.

## VALUES

We drive for excellence and commit to serve our clients with utmost integrity and believe in mutual benefits.

Established in 2012 by Jagdish Karande, promoter of M/s Unity Industries, we, Unity Fabtext Industries Pvt. Ltd. are one of the leading manufacturers of non-woven products in the country. With manufacturing units pan India, we aim to provide high-quality products with multifarious uses.

We give utmost importance to the current trends of the market and manufacture products as per the specifications of our valued customers. We have a professional team of highly efficient and hardworking designers and engineers that deliver innovation and high standard quality products thereby making us the most sought-after entity in the market.

We, at Unity Fabtext Industries Pvt. Ltd. strongly believe that growth can only be achieved through customer delight and hence, constantly thrive to satisfy all our customers with high quality and trustable products.

# DIRECTOR'S MESSAGE

**"If your dreams are not bigger than your capabilities, then they are too small"**  
**~JAGDISH KARANDE~**

On behalf of the entire team of Unity Fabtext Industries Pvt. Ltd., I humbly welcome you all to our world of Non-Wovens, Polymers & Technical Textiles. As you navigate our brochure, I hope you learn more about the qualities that make our company an outstanding provider of top-grade non-woven products, polymers, and technical textiles. In my 3 decades-long experience in this field, one thing I have learned is that without hard work, honesty, and willpower, one cannot scale the heights of success. As the managing director of this organization, I firmly believe that my team and I are willing to constantly evolve and not just sustain but excel in this industry. I have faith that with the intention of mutually benefitting one another, my stakeholders and I can reach the greatest heights.

Our key strategic imperative now is to shift our focus to providing solutions to the end-users rather than only items. We shall work continuously to provide our customers with service and quality products at a competitive price. We pride ourselves on being one of our customer's first choices and will continue to work hard until and even after we become our customer's only choice. We strongly believe that when it comes to ethics and integrity there can be no compromises, and hence keep ethical working as the top priority of our firm. In our efforts to deliver on our mission, we're guided by strong and meaningful values, including an unwavering commitment to integrity. We reinforce and build on our ability to deliver on our mission with continuous innovation and periodic transformation of our business.

Throughout our history, successful innovation has often come in the form of new products to generate growth, whether developed in-house or in collaboration with other innovative companies, both large and small. All told, when we look forward, we see a gold mine of opportunities. Our strategy focuses on constantly investing in innovation for growth and efficiency. We are committed to delivering on our goals and I have confidence that we will. And in doing so, we'll drive sustainable, long-term, incremental value for our clients and for our shareholders.

So in summary, I would like to thank all those who have contributed relentless hard work and effort to the Unity Family by bringing it up here today and will continue to grow for years to come. Once again, Thank you for your decade-long trust in our company.

Warm Regards  
Jagdish K Karande
